

- **Financial shortage: time to market for innovation**
- **Energy shortage: low consumption and migration to all electrical for durable growth**
- **R&D shortage: Cooperations are just mandatory**

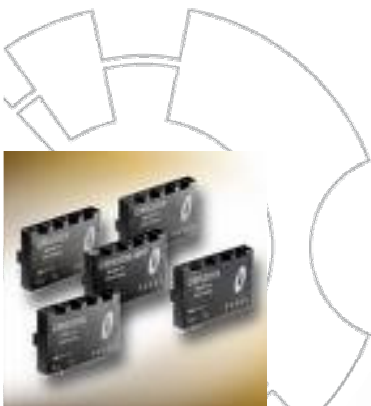

- Road, air and sea transportation
- Energy and environment
- Medical appliance
- Telecommunication
- Global security

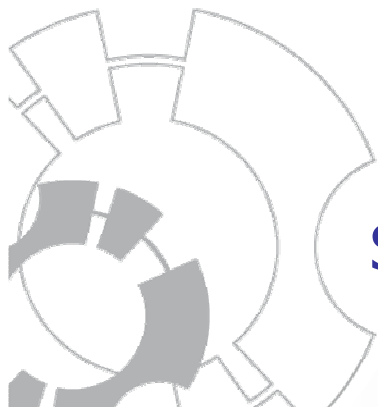

➔ **Increase our leadership to emerging countries:**

- Thanks to high volume low cost solutions
- Supported by smart systems and heterogeneous integration
- Promote cooperation between high tech and low cost industry sectors

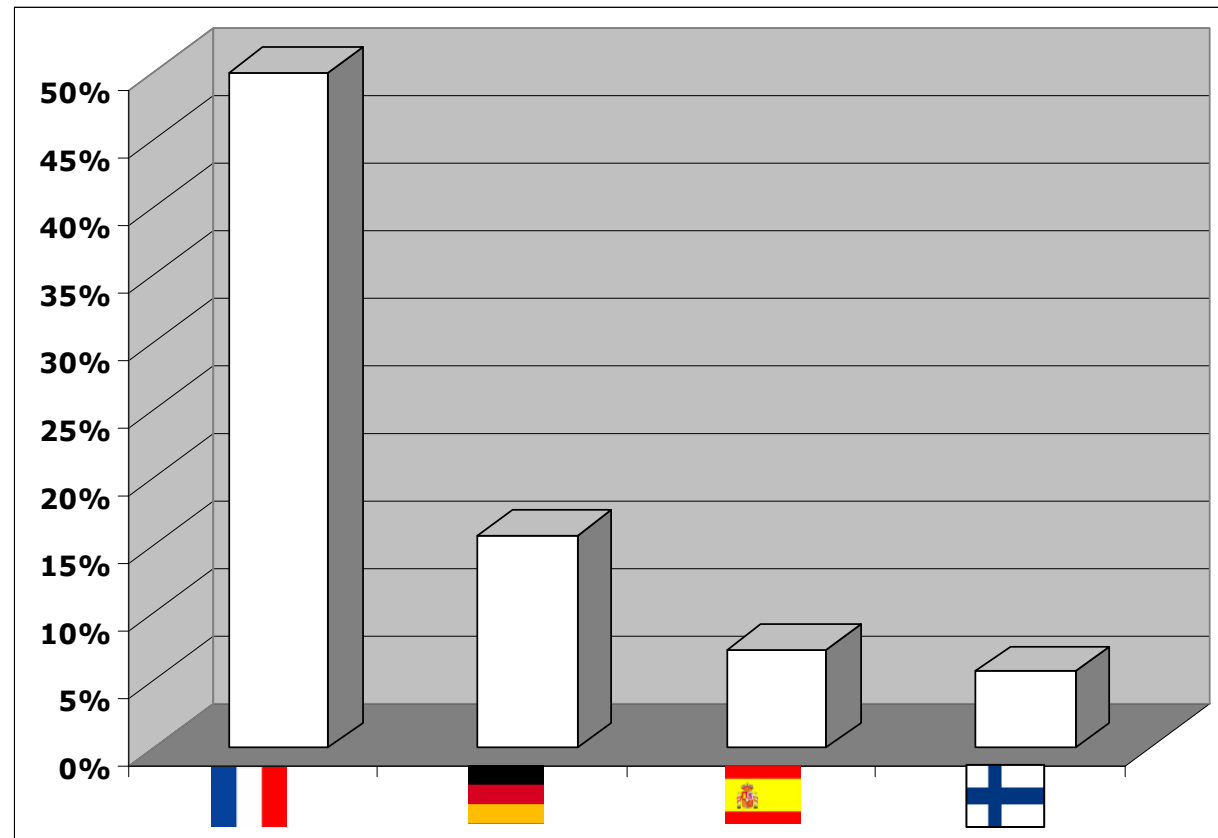

- Eureka clusters:
 - industry driven
 - lean
 - easy to address
 - bilateral
 - close to SME
 - first pass yield
 - community oriented
 - closed to the best of best R&D labs

Should be invented if was not existing...
